## Product Description

### Radiator Coolant Water Hose from Expansion Tank 11537572159 11537530647 for BMW 320i 2004-2005

Engineered for optimal thermal management, coolant water hoses feature reinforced materials with multi-layer textile/steel wire reinforcement to withstand extreme temperatures and pressure while resisting ozone degradation, chemical corrosion, and abrasion. The precision-molded contours ensure perfect OEM fitment with flared bead-seat connections for leak-proof sealing at all engine interfaces. Advanced material formulations prevent swelling from ethanol-blended coolants. Compliant with ISO9001 standards, these hoses deliver burst-resistant performance with kink-free coolant flow across hybrid, electric, and combustion engine applications - from compact cars to heavy-duty trucks - featuring UV-stabilized compounds that prevent hardening, cracking, or weepage throughout extended service life.
