- Weight: 0.350 kg

Ordering Information

- Delivery Time: 7-14 days
- Payment Methods: TT, Western Union, PayPal
- Packaging: Standard protective packaging

Installation Notes

Recommended to use clutch alignment tool during installation for proper fitment.

Frequently Asked Questions

Q: Is this bearing only compatible with 2019-2021 Ranger 2.0L models?

A: Yes, please verify your VIN for compatibility with other model years.

Q: Are special tools required for installation?

A: We recommend using a clutch alignment tool during installation for proper fitment.

Q: What are the signs of a failing clutch release bearing?

A: Common symptoms include squealing noises when the pedal is pressed or increased pedal resistance. If you notice these signs, inspect and replace the bearing promptly.
