Product Description

The 23390-0L041 Fuel Filter is designed to provide efficient fuel filtration and reliable protection for diesel engine systems. Manufactured according to OE specifications, this fuel filter effectively removes water, rust, dirt, and other harmful contaminants from fuel before it reaches the engine and fuel injection system.

Built with high-quality filtration media, the 23390-0L041 ensures stable fuel flow while maintaining excellent filtration efficiency. By supplying cleaner fuel to the engine, it helps improve combustion performance, protect fuel injectors, reduce engine wear, and extend the service life of critical fuel system components.

This fuel filter is widely used in Toyota diesel vehicles and is an ideal replacement solution for distributors, wholesalers, retailers, and automotive aftermarket suppliers worldwide.
